

Pro Fisha 525

The Pro fisha 525 is the middle size kayak in our Pro fisha range. This model was designed with performance and stability in mind. We wanted to make a fast but still stable kayak with great gliding ability. Ultimately the kayak is ideal for chasing those fast moving pelagic and covering long distances but not sacrificing too much stability.

The design of this model allows the kayak to have excellent turning abilities, a more prominent rocker for better wave riding ability and being constructed with epoxy based resins and CNC technology it allows us to keep it super strong and lightweight. Designed for the bigger angler we increased the volume of the kayak to cater for the extra weight, lowered the seating position and moved the point of stability to make this the most stable of the Pro fisha range. This kayak also has a longer length footwells than the other 2 Pro fisha models for the taller anglers.

Designed for performance as well as being lightweight and able to cover a long distance the Pro Fisha's have been well received all over the world.

Best Feature:	Speed & Performance
Conditions:	Freshwater and Open Ocean
Length:	17 feet 2 inches
Width:	24 inches
Weight:	58 pounds
Max Angler Weight:	300 pounds
Capacity:	430 pounds

- Stability:** ★★★★★★★★☆☆
- Speed:** ★★★★★★★★☆☆
- Glide:** ★★★★★★★★☆☆
- Manoeuvrability:** ★★★★★★★★☆☆
- Surf Ability:** ★★★★★★★★☆☆
